No Need For New Pact With Russia

Three Finnish Parties Oppose Generalissimo Stalin's Proposal

HELSINKI, March 5. (Reuters): Three of Finland's seven political parties to-day opposed a Finnish-Russian Military Assistance Pact on the lines suggested by Generalissimo Stalin in his letter to President J. Paasikivi last week.

Only two parties, the Communists and Left-Wing Peoples Democrats, have so far approved discussion of M. Stalin's seven-day-old request.

Under the constitution all the seven parties must give their approval before the Government can start negotiations.

The Conservative and Liberal parties told President Paasikivi to-day: "There is no reason to start negotiations for such a pact." The two parties hinted they would not oppose negotiations for a different kind of pact.

The Agrarian Party told the President that Finland has concluded a peace treaty with Russia which forms the basis for mutual relations, there is no reason to conclude a new pact.

The two remaining parties are the Social Democrats and the Swedish Peoples Party.

A Communist speaker in a Fredrikberg railway workshop outside Helsinki asked the workers to-day: "Which do you choose? The capitalist hand or the hand of Comrade Stalin?"

Workers shouted: "Neither."

ABDUL GHAFFAR KHAN WANTS AZAD PAKISTAN

HAVE FOREIGN EXPERTS BUT NO BRITISH ADMINISTRATORS, HE URGES

KARACHI, March 5 (A.P.I.): Khan Abdul Ghaffar Khan, the "Frontier Gandhi" and leader of the Khudai Khidmatgars, in his maiden speech in Pakistan's Parliament to-day stated: "I look at the Pakistan administration and find that there is no difference between it and the British administration. Corruption now is far greater than during British rule."

"We are more British in administration now and we are following the same old policy. While in India the Indians have Indian Governors and even a woman as a Governor, we have some British Governors. The British that we turned out from the Frontier are now again on the top of us. Is this Islamic brotherhood and equality?"

Khan Abdul Ghaffar Khan, who spoke for thirty minutes in Urdu, decried the making of law through ordinances and warned that "the rule by force is always temporary and is hated."

"The people will hate you if you use force."

Stating that he had been charged with creating Pathan provincialism, he put the question: "Have I started provincialism in Sind, Bengal and the Punjab?"

Mr. Ghauffar Ali Khan intervening said: "We do not believe in provincialism but in Pakistan."

Khan Abdul Ghaffar Khan: "Who taught provincialism but the Punjabis? (laughter)."

Explaining his demand for Pathanistan he said: "We want in Pakistan an autonomous area or all the Pathans want Islam."

"We want you to help us to unite all the Pathans east of the Durand Line."

Referring to the politics in the North West Frontier Province, Khan Abdul Ghaffar Khan said: "Come and join the Muslim League we are and join the Muslim League we are. We say the Muslim League was our duty is over with the achievement of Pakistan."

Mr. Ghauffar Ali Khan intervened and said in Urdu that the work for the consolidation of Pakistan remained.

Mr. H. S. Suhrawardy in Urdu said "Not through the Muslim League."

Khan Abdul Ghaffar Khan (who was speaking on his cut motion, on the Finance Minister's demand for grants for the Cabinet) to discuss General Administration, said: "That Pakistan has come to being is an acknowledged fact. But now how will we run the country? Pakistan is a poor country, then why should it be run to the advantage of capitalists? Why should the poor be taxed?"

Quoting from the ways of Hazrat Ali and the administration of Muslim Caliphs, he said: "The way is there but we must sacrifice. Without toleration we cannot make Pakistan great."

He said that the economic and political equality of Islam must be practised in Pakistan.

"You should be the servants of the (Continued on Page 7)

DENA BANK CONTINUES ON ITS ONWARD MARCH

Consolidation Of Rapid Progress In 9 Years Yields Satisfactory Results

The Eleventh Ordinary General Meeting of Devkaran Nanjee Banking Co., Ltd. was held on Friday, the 5th March, 1948, at its Head Office, Bombay. Mr. Pranlal Devkaran Nanjee, the Chairman of the Bank, presided.

Before the proceedings began, the meeting standing paid its humble homage to revered Mahatma Gandhi, the Father of our Nation, who had passed away to the untold sorrow of the country in less than six months after it had achieved independence under his aegis.

In moving the Resolution for the adoption of the Directors' Report and the Accounts for the year ended 31st December, 1947, Mr. Pranlal referred 'inter alia' to the consolidation of the rapid progress that the Bank had made during the nine years since it started, and thought that the Bank had shown satisfactory results and succeeded fairly well in its efforts towards greater efficiency, better management and higher standards. He said also that the Bank had no branches in the Punjab, and in near Pakistan, and its policy of extending nearer home had saved it from the anxieties on that score.

HOW TO AVOID WASTEFUL COMPETITION

He further stated "As regards competition among banks, an esteemed authority had during the year sounded the following valuable advice:—In order to avoid wasteful competition, banks should form associations for every place, district, province, etc., and enter into mutual agreements regarding the rates of interest for various classes of deposits or advances, exchange for drafts and telegraphic transfers, commission for the collection of bills, purchase and sale of securities, etc. Banks should also refrain from attracting staff employed in other banks by offering high salaries." So far as we are concerned, you will be glad to know, Gentlemen, that we have always tried to follow this sound advice in thought as well as action. I very much wish that all banks will wholeheartedly follow and act up to this golden advice.

"Gentlemen, I cannot allow this occasion to pass without referring to the Prime Minister, in the words of the Prime Minister, one of the most notable in contemporary Indian history, which took place recently when the United States of Kathiawar, now known as Saurashtra, was inaugurated. We have five Brothers in Saurashtra. Our Founders have hailed from Saurashtra and our Bank is well-known and popular there. Argentine-Chile Pact**Agreement For Legal Protection And Defence Of Rights**

BUENOS AIRES, March 5 (Reuters): Backing their claims to large areas of British Antarctica, Argentina and Chile last night signed a pact of "legal protection and defence of their rights" in what was described as "the South American Antarctic."

The agreement stated it was intended to consolidate definitely those rights.
The pact was announced by Dr. Juan Bramuglia, Argentine Foreign Minister, as the 6,000 ton British cruiser Nigeria and the sloop snipe were taking Mr. Miles Clifford, the Falklands Islands Governor, on a tour of British Antarctic settlements.

Dr. Bramuglia denied the area of the "South American Antarctic" as lying between 25 and 90 degrees west, Argentina and Chile, he said, recognized each others "unquestionable Sovereign rights" in this territory and would act together in legal protection and defence of these rights.

They would also continue their activities in the region of the as yet undelimited frontier between the Argentine and Chilean sectors in a spirit of mutual co-operation and would continue negotiations for a treaty defining the Antarctic frontier between them.
Asked if any "military implication" was involved in "legal protection and defence", Dr. Bramuglia said: "All rights which arise out of sovereignty will be exercised."

Twenty-four hours before this pact was announced, Mr. Ernest Bevin, British Foreign Secretary, had told the House of Commons that the British first international incident involving British occupied posts had standing instructions to take all necessary measures to safeguard the British legal title in the Falkland dependencies, where the two republics have staked claims.

Dr. Bramuglia further said that the Antarctic question would be introduced at the Inter-American Conference opening at Bogota at the end of this month.
As H. M. S. Nigeria zigzagged through icebergs and "growlers", Mr. Miles Clifford, Governor of Falkland Islands, received details of the first international incident involving foreign ships in Antarctic waters, according to Reuters' special correspondent in the cruiser, Frederick Jones.

An officer from the Argentine minesuperintendent, it was disclosed, had boarded the Norwegian fishing vessel Bratag and told the Captain he had no right to be sailing in Antarctic waters without Argentine permission.

The officer made an entry to this effect in the Bratag's log, but it was later deleted by the British Harbour Master at Whalers Bay, Deception Island.

Portugal's Next Move In India

LISBON, March 5 (I.P.A.)—A spokesman of the Colonial Ministry here said that the proposed New Constitution for Portuguese India was received back with the Governor-General's own views on this matter and on Indian situation in general. It will be remembered in this connection, that the Assembly of 62 Government invitees from Portuguese India called to give their opinion on the constitution could not come to any decision because the proposal was considered "bogus".

Asked about the next move of the Lisbon Government regarding the constitutional deadlock in Portuguese India, the spokesman said that now any move would have to wait until the coming exchange of Diplomatic missions between New Delhi and Lisbon. The Foreign Ministry circles here hinted at the possibility of the present Portuguese Consul-General in Bombay, Dr. Joao de Lucena, being sent to New Delhi as the Portuguese Ambassador.

ALBANY, New York, March 4. (U. P.A.): Governor Thomas E. Dewey charged today that President Truman's "Profligate waste" of public funds has brought the nation near to economic disaster.

In a message to Wisconsin Republicans supporting his candidacy for the Republican presidential nomination, Dewey said Truman's "weak, incompetent" handling of both foreign and domestic affairs has failed.

FOR AND AGAINST MARSHALL PLAN

WASHINGTON, March 4. (Reuters): In the course of a sweeping denunciation of the Marshall Plan, Senator George W. Malone (Republican, Nevada) today charged Britain and other European countries with manipulating their currencies for commercial advantage.

Senator Malone said England's official value for the pound was four dollars and three cents but in New York city you can buy the pound for two dollars and 25 cents.

He added this meant "that if you buy any products from England, you are paying nearly twice what the product is worth". He also referred to Britain's trade treaty with Russia, which includes fabricated steel products, while the "Marshall Plan includes raw steel for England."

Senator H. Alexander Smith (Republican, New Jersey) supported the Marshall Plan, and in reply to a question, said that the administration of the plan might be to let England, if she agreed to participate in the plan, to abrogate her trade agreement with Russia in regard to the supply of steel products.

BOMBAY CORPORATION & B.E.S.T. COMMITTEE

Ashok Mehta Asks Latter To Resign "En Bloc"

Shri Ashok Mehta has issued the following statement:—
On the 8th instant the Municipal Corporation is to elect two members on the B. E. S. T. Committee. When the composition of the Corporation has changed completely it is unwise for the present body to fill a fourth of the seats of so important a committee. It is desirable to set up a convention whereby the B. E. S. T. Committee resigns en bloc when the newly elected Corporation meets—and thus give an opportunity to the new house, and through that to the voters who have shaped it, to reconstitute the committee entrusted with the difficult work of traffic transport. To oppose such a convention is to deny the voters' sovereign rights in the Corporation.

On behalf of the Socialist Party we have nominated Mr. G. G. Mehta, General Secretary of the B. E. S. T. Workers' Union, in the belief that the B. E. S. T. Committee can function efficiently only when it has on it accredited representative of the workers.

The Congress party has so far refused to give any representation to labour on the B. E. S. T. Committee. It is said that on this occasion the Congress Party is supporting the candidature of Mr. Akhtar Hasan. The workers have no confidence in him and his record as a Trustee of the

Bombay Port Trust does not arouse confidence. The workers of Bombay will judge the parties in the Corporation by the way they vote for the B. E. S. T. Committee.

Members of the Asian Research and Study Group, Bombay, met Dr. Arthur Upham Pope, the Chancellor of the Asia Institute of America, on Sunday last, and discussed with him plans for launching the Society of Asian Affairs in Bombay. Dr. Pope was appraised by the sponsors of the support received for the scheme from eminent Indians including Premier Shri B. G. Kher.

Dr. Pope in his address welcomed the scheme of the proposed Society of Asian Affairs and promised every support and co-operation of the members of the Asia Institute of America and other eminent scholars in Asia and other parts of the world who are actively connected with the Institute. He further offered every co-operation in the production of the new magazine "United Asia" which will be shortly published by the Inter-Asian Publishing House. He gladly accepted the invitation of the Group to join the Editorial Board of "United Asia". He stressed the need for a journal devoted entirely to Asian Affairs reflecting the aspirations and the trends of the renaissance Asia. He was confident that the magazine will be warmly welcomed by the people in all Asian countries. He said that it was possible to publish an American edition of "United Asia" under auspices of the Institute.

REQUISITION ACT CHALLENGED

(Before the Hon'ble Mr. Justice Coyajee).
Khushaldas S. Advani ... Petitioner
Versus.
P. V. Rao, Assistant Secretary to Government of Bombay

His Lordship on Thursday accepted a petition and granted a Rule against the respondent to show cause why writs of certiorari and prohibition as well as an order under section 45 of the Specific Relief Act should not be granted against him. The petitioner and two others were refugees from Karachi. In exchange for a property at Karachi, they had under a Deed of Assignment, dated 29th January 1948, obtained the right of occupation of the first floor of a building known as "Paradise" at Warden Road and were actually in use and occupation of the premises. On 2nd March 1948 the petitioner was served with an order issued by the respondent under section 3 of the 1947 requisitioning Ordinance for a public purpose. On the same day he was also served with another order under section 9 of the Ordinance authorizing a certain Inspector to take possession of the premises. The respondent also wrote a letter to the landlord informing him that the flat in question had been allotted to one Mrs. Dayaram.

The petitioner contended that the power of requisitioning arrogated to himself by the Government of Bombay under those sections of the Ordinance was ultra vires and illegal. The petitioner submitted that in so far as the Ordinance purported to confer on the Provincial Government powers to make orders with respect to immovable property was itself ultra vires inasmuch as such powers could only be exercised by the Central Legislature, in any event upto 31st March 1948. On behalf of the petitioner it was further submitted that since the Provincial Government had purported to allot the flat to an individual, they had not requisitioned it for a public purpose within section 3 of the Ordinance. The petitioner therefore applied for a writ of certiorari to quash the requisitioning orders and a writ of prohibition as well as an order under section 45 of the Specific Relief Act preventing the respondent from enforcing the Orders.

His Lordship issued a Rule and fixed it for argument on 6th April 1948. His Lordship also granted interim relief restraining the respondent from enforcing the Orders till the disposal of this petition, and directed that the petition be served on the Dominion of India and the Government of Bombay.

Mr. N. A. Palkhivala instructed by Messrs. Gargat and Co. appeared for the petitioner.

PRESS REPORTERS' WELCOME TO CHIEF JUSTICE

Press reporters of the High Court welcomed Mr. Justice Chagla as the first Indian permanent Chief Justice of Bombay at a reception in his honour at the Governor's Pavilion of the Cricket Club of India Ltd. on Thursday evening.

Welcoming the Chief Justice, Mr. A. J. Poonawalla stated that it was most gratifying that Mr. Justice Chagla who always had the independence of India at heart should have taken up the reins of office as Chief Justice on the very day on which India attained independence. The Chief Justice was then garlanded by Mr. J. R. Vimaladai.

Agreeing with Mr. Poonawalla in his remark that the Press was the only link between the law courts and the public, the Chief Justice observed that in that sense it was only with the help of the Press that the High Court could function. The Chief Justice stated that it was possible for the press to publish only sensational cases which would cater to the passions of the public. From reports he had read in the press he could say that the press reporters of the High Court had not followed that course but had discharged their duties in a noble manner.

The gathering which included among the guests, the editors of the leading local newspapers, then dispersed.

WARLIS IN JAIL

The District Magistrate, Thana, has issued the following statement:— My attention has been drawn to a Press report of a speech made by Mrs. Godavarthi Parulekar at a Conference of Hailis held in Surat on the 10th January 1948 in the course of which she declared that there were 300 Warlis in Jail and about 900 more who were being prosecuted.

The figures in question are a gross exaggeration. The total number of Warlis detained under the Public Security Measures Act during the January 1948 in the course of which she declared that there were 300 Warlis in Jail and about 900 more who were being prosecuted.

Bombay Government's War Against Communalism & Private Retaliation

Strong Measures Curb Dangerous Situation: Dangers Ahead

BY A SPECIAL CORRESPONDENT

It was inevitable that an explosive situation should have been created by the shock of the tragedy at Birla House, Delhi, in our province as well as throughout the country. But the situation has been mastered thanks to the prompt and energetic action taken by Bombay's Premier and Home Minister.

TIMELY ACTION

It is true reports still continue to pour in of popular excitement and acts of violence against person and property particularly in some of the districts and States. It is also true that some places, particularly in the Deccan States, considerable havoc has been caused and that loss and loot have levied their toll of losses running perhaps into crores. But the overall picture is not so bad and discouraging as one might have expected. However, the danger we have to face presents certain aspects of a sinister character and the public must be warned against it in good time.

Bombay's Premier Balasaheb Kher and Home Minister Morarji Desai were the first to realize the danger that threatened to mar the solemnity of the tragedy that the nation was mourning. The police throughout the province rose to the occasion and carried out their orders with an efficiency and high sense of duty which should furnish the most eloquent testimony to the slow but definite change that has been brought about. The police, like the military, represent the forces of stability, discipline and patriotic duty and are functioning as they should function in a democratic country—an instrument of internal security, law and order based on the values of democratic existence.

POWER & HATE POLITICS

But the danger that we have to face is not restricted to police control and action which have their limitations. From the reports received from certain districts, it appears that the popular fury that broke out in a wave of private retaliation is being diverted and channelized through class conflict and class hatred. Certain political elements appear to be exploiting the situation by pressing the forces of violence and lawlessness in the service of their doctrine of hatred against certain classes. In the Maratha country, particularly, attempts are clearly being made to revive the defunct non-Brahmin movement and launch a crusade against certain classes of property.

All doctrines based on hate and intolerance are doomed to frustration and defeat sooner than later. This has happened to the so-called non-Brahmin movement when the British rulers in this country used it for their political purposes. As the history of the movement shows, it was initially a revolt of the victims of theocratic hegemony of the Brahmanical classes. Paradoxically enough, many of the collaborators of Jyotiba Fulay, founder of the Satyashodhak Samaj, were Brahmins themselves. Eventually, the movement deteriorated into a

Brahmin-baiting crusade and slowly died out of existence when self-seekers tried to exploit it. The Congress nationalism captured the mass mind, imagination and loyalty to its brilliant record of service and sacrifice.

NATIONAL NEEDS

Today, an attempt is being made to revive this movement by a group of power politicians in Satara and other districts. Side by side, the enemies of the Congress are also trying to mislead the masses and foment the doctrine of class war directed against the predatory classes of Brahmins. Both these elements and tendencies are trying to direct and divert the mass anger against not merely the Hindu-Brahmins but the minority class of Brahmins too. The danger of this situation is obvious enough and must be met not merely with strong action by the Government but also with the really effective action by men and women of goodwill who must first restore respect for the human person, democratic freedom, amity between class and class and the tradition of tolerance without which no progressive social or national existence is possible.

The tragic death of Mahatmaji has throughout the country released the mass emotion of a mixed pattern. But, as happens in times of national disaster, an atmosphere is created that is highly favourable to re-establishment of the values of national solidarity and action based on the ideals for which Mahatmaji lived and died so heroically. The national leaders have already given the call for action that alone can help the nation to hold together and work in a constructive effort in realizing the dream of a strong, happy and progressive India. Mahatmaji cherished till his last breath. Peace and freedom from any internecine conflict are the essential conditions of such constructive effort and the Bombay Government has given a welcome lead by dealing with firmness and justice with acts that constitute a challenge to the existence of society.

PEOPLE'S DUTY PEACEFUL AND PROGRESSIVE

The Government has acted for, and with the support of, the people it represents. But the Government action is not enough. It is the people and popular as well as press opinion that must actively combat all tendencies of disruption and incitement to violence and acts of destruction of property. Both Balasaheb Kher and Morarji Desai have given the necessary lead and done all that is necessary in the present nation wide crisis: and it is the duty of the people to rise to the occasion and work individually and collectively to check the tendencies that are bound to prove harmful and make the Government's tasks difficult. It is everybody's duty today to fight the poison of mutual distrust, fear and hate and restore establishment of conditions of peace and harmony amongst all classes and political parties and groups in the province.

WEST INDIES COME OUT ON TOP

England Los 9 For 110 In Third Test

GEORGETOWN, BRITISH GUIANA, March 4 (Reuters): On a firm pitch which was not treacherous but was responsive to spin, following more rain which prevented play before lunch, the West Indies lost three wickets for the addition of only thirteen runs in twenty-seven minutes on the second day of the third test match against England here today.

They declared their first innings closed at 297 for eight, in the hope that England's wickets would also fall quickly.

The West Indies policy certainly paid dividends. England put on 59 runs before the opening stand was broken, but then nine wickets fell for an addition of only 51 runs, and at close of play they were 110 for nine, being 187 runs behind with only one more first innings wicket to fall.

In twenty deliveries after tea, Goddard, the Indies Captain, put his side completely on top by taking the wickets of Hutton, Robertson and Place at a cost of only six runs.

England were then engaged in a desperate struggle for runs, and none of the batsmen were happy except Cranston, who hit four fours in his 24 before being stumped in attempting a big hit.

Another batsman to reach double figures was Laker, who was caught when hitting out at Ferguson.

Allen did not consider himself fit to bat today, but on him and Howarth rests the responsibility of saving the follow on tomorrow, when 38 more runs are wanted.

Frank Worrell who continued his brilliant innings of yesterday, batted three and half hours for his 131 not out, and hit fifteen fours.

Boxers Operated On For Blood Clots In Brain

PHILADELPHIA (Reuters): Two boxers were recently operated on here for removal of blood clots from the brain. One of the operations was performed on Ed Franklin, a local heavyweight, who collapsed at the finish of his 10-round bout with Bill (Chicken) Thompson. The other was on Leroy Johnson, an 18-year-old local lightweight who collapsed in a ring while practicing for a coming bout here. Both boxers are now in fair condition.

WEST JAVA STATE

President Refuses To Take Office Till Status Is Ascertained

BATAVIA, March 5. (Reuters): Raden Wiranatakusuma, newly elected head of the West Java State, will not enter office until he has ascertained the exact status of "Pasundan"—the name chosen for the territory to-day. Antara, the Indonesian Republican News Agency reported.

The Agency quoted him as saying that he opposed the secession of West Java from the Republic.

Mr. L. Neher, former Dutch Housing and Reconstruction Minister, and Jonkheer H. K. Van Vredenburg, Deputy Chairman of the Dutch negotiating delegation in Indonesia, were to-day appointed "delegates" of the "Supreme Government" with full ministerial rank to assist the Li-Governor-General of the Netherlands East Indies, Dr. Hubertus Van Mook.

This alters the Dutch Government's original intention of appointing them to the "collegiate body" which was to share the task and responsibility of Dr. Van Mook.

It was considered necessary to avoid giving the impression that the body would make the work of the proposed Interim Federal Government for Indonesia less important or that the body would have a say in internal administration.

Dr. Hubertus Van Mook, and the Premier of the Indonesian Republic, Dr. Mohamed Hatta, will probably meet here next week to discuss Republican participation in the proposed Interim Federal Government for Indonesia. It was reliably learned to-day.

The meeting is expected to follow an exchange of views between the two leaders through Dr. Hatta's special envoy, Dr. Darmasutawan, who yesterday flew to Jogjakarta, the Republican capital, after seeing Dr. Van Mook.

He was understood to have taken the suggestion that Dr. Hatta should come to Batavia.

Role Of Tibbia College

BOMBAY, Friday.
The occurrence of venereal disease
in India is far greater than is com-
monly realised, said Dr. M. H. Zubairy,
producer and director of the film.
Ignorance is not Elise, while present-
ing the film to an audience consisting
of medical students of the Tibbia College
at Sir Cowasji Jehangir Public Hall,
this afternoon.

"Ignorance is not Elise" is an anti-
v. D. film which presents simply and
accurately the essential facts about
the cause and cure of venereal
diseases.

After the presentation of the film,
the audience witnessed a programme
of theatrical entertainment pre-
sented over by Mr. A. P. Sabavalla, Mayor of
the city.

Hakim Rashid Ahmed Khan, the
Principal of the Tibbia College wel-
coming Mr. Sabavalla said that the
Tibbia College was rendering valuable
service to the nation in that it trained
Vaidas and Hakims in indigenous
systems of medicine which were more
efficacious than foreign nostrums.

Asian Youth Festival
Sgt. Dabhyabhai Patel, Chairman,
Preparatory Committee, Asian Youth
Festival, and Sgt. K. V. K. Vice-
President, All India Youth Congress
in a joint statement to the press,
say:—

number of enquiries are pouring
in the Festival Office every day ask-
ing various questions about the South
East Asian Youth Conference, which
was recently held at Calcutta.

This is to state that the All India
Youth Congress which is composed
purely of the young Congress men
and women had nothing to do with
the South-East Asian Youth Confer-
ence that was organised
with Party of India, by the
International Preparatory Com-
mittee of the World Federation of
Democratic Youth which claims to
be an International Organisation of
world youth.

The Asian Youth Festival is not a
political conference; it is primarily
a festival organised for the purpose
of promoting good-will and friendly
relationship among the youths of the
Asian Countries.

Fruit & Vegetable Sellers' Grievances

The Secretary, Fruit and Vegeta-
ble merchants' Association writes:
Athar Crawford Market is the sole
centre of wholesale transactions of
fruits in the city of Bombay. Bom-
bay Municipality gets Rs. 255,000—
as solid income by way of scale rent
only per year. Moreover this in-
come is being levied on the vendors
of fruits and vegetables. But no vigil-
ant attention is paid to the
legitimate grievances and improve-
ment of the Market.

There is acute shortage of space
and vital need of sufficient sheds.
Spacious and dry sheds of ample
space for the vendors to store their
under the blessing of sun, carry on
their business, too, and run the risk
of deterioration of their goods to
earn their just living. Moreover,
recently one of the old and worn out
biggest shed has been demolished
with the intention of reconstructing
another on large scale and modern
plan; but in vain; Still further to
crown the whole, the Municipal au-
thorities have formed the opinion
that such sheds being utilised by the
vendors for storing purposes, a stor-
age fee for the unsold parcel remain-
ing due to lack of customers and end
of business hours may be haged in
addition to the scale rent. Accord-
ingly a new proposal has been re-
commended to the Standing Com-
mittee of the Corporation stating
that this additional charge will be
effective measure to remove conges-
tion, maintain greater order and
effect better supervision instead of
admitting inability to meet the griev-
ances.

As this drastic measure will lead to
liquidating the fruit business in
Bombay, I urge the Corporation to
investigate and do justice.

Indian Language Papers
Must Assert Themselves

AMMEDABAD, March 3 (AP)—
Kaka Kalelkar, inaugurating the de-
partments of Bengali and Journalism
started by Bholabhai Jeshingbhai

Sabha to-day stressed the importance
of Indian language newspapers and
said: "Our people started English
newspapers to ventilate their griev-
ances before the British Rulers. Eng-

back seat". "Indian language papers
must improve their quality, get a hold
on the masses and stand them-
selves". Mr. Kalelkar added.

Referring to the study of Indian
languages, Mr. Kalelkar said: "We
should learn the languages not only
of our neighbouring provinces but
even those of the aborigines in order
to broaden the foundations of our
newly-won liberty. We should also
reform our scripts to adapt them to
the requirements of journalism such
as composing, teleprinting and typ-
ing."

Development Scheme
Not To Depend
On LoansGovt's Financial Position Is
Sound, Says V.L. Mehta: Reply
To Budget Criticism

Bombay's Finance Minister, Mr. V. L. Mehta, affirmed today that the financial structure of the Provincial Government was essentially sound and he vehemently disavowed any suggestion for resorting to borrowing to finance the projected development schemes of the Government.

Mr. Mehta, who was replying to criticism levelled against his Budget during the three-day general discussion in the Bombay Legislative Assembly, declared: "Fortunately the Government have adequate resources from where we can find funds to finance these development schemes. It will be undesirable, uneconomic and unscientific to meet such expenditure by borrowing."

AIMS OF PLANNING PROGRAMME

The Minister said that their planning programme was designed to fight poverty and to establish a strong and healthy democratic State. The considered industrial policy of the Bombay Government, he said, would be made known immediately after the Central Government's announcement of its policy.

Besides two other Ministers, Messrs. Hukkerikar, Thakore Sahib of Kerwada, Mrs. Leelavathi Munshi and many others took part in today's discussion.

Mr. Mehta, replying to the criticism against the Budget, said that he was glad to note that the Opposition members had felt the change of times and were genial and cheerful in their remarks.

The Minister flatly repudiated Mr. A. A. Khan's allegation that the Government were moving at the pace of a bullock. He frankly believed that in the earlier stages of planning, it might be desirable to build up their resources both in material and financial. He admitted that certain factors forced them to cut down the allotment for the Post-war Reconstruction scheme from 90 crores to 75 crores. However, he assured that it might be possible to adhere to the original figure in view of Mr. Shammukham Chetty's assurance that there would be no drastic reduction in the Central Government's subvention to the Provinces.

Their plans had the additional merit in that they were well-balanced, he said. Planning should be designed as not only to meet the original financial outlay, but also to meet the recurring expenditure. In some cases recurring costs would be proportionately higher than even the initial outlay.

GOVT. HAS ADEQUATE RESOURCES

Referring to the critical remarks made by a member about the advisability of meeting capital expenditure from cash balances and his suggestion to float a loan to finance their scheme, Mr. Mehta said that fortunately the Government had adequate resources from where they could find funds to finance the development schemes. He asserted that it would be "undesirable, uneconomic and unscientific" to meet such expenditure by resorting to borrowing which would involve the payment of large interests. The last three loans floated by the Section 93 Government were not to finance any capital expenditure.

Referring to the charge of corruption levelled against Government officers, Mr. Mehta said: "I fail to see any difference between the bribe-giver and the bribe-taker. The former is more heinous than the latter."

Referring to the proposals for fresh taxation, he said that it would be wise to build up their resources. "Measures placed before you are unexceptional," he declared.

"It is poverty that we are fighting against and it is for this that we are planning the programme of development which may seem modest in scope at present, but which in due course would be looked upon as revolutionary. Democracy is incompatible with poverty. We want to build up a strong and healthy democratic State and it is for the establishment of such a State that I plead to the members of this House to accept the Budget," concluded Mr. Mehta.

IMPROVING AGRICULTURE

Government's efforts to improve agriculture in the Province were outlined by Mr. M. P. Patil, Minister for Agriculture, while replying to criticism made by members. The Minister stated that if the schemes already prepared by Government were put into operation, the Province would become self-sufficient in food-supply in five years.

Mr. Patil, at the outset, referring to the criticism made by a member that there was only one agricultural college in the Province, stated that last year the Government had made provision for the expansion of the Agricultural College at Poona and also for starting two more colleges, one at Anand and the other at Dharwar. This province would thus be the first to own three agricultural colleges. These colleges would provide education for nearly 600 students.

The Province had already a full-fledged veterinary college. There were also 13 agricultural schools training boys in practical agriculture. In these schools the students were given a stipend of Rs. 20 a month. Government were convinced that the students

of these schools, who mostly came from poor families, needed this help badly. But, at the same time, the Agricultural Department was trying its best to relieve the financial strain on the Government. The Department was planning to introduce in these schools the principle of earning while learning. It was expected that when these schools owned their own plots of land for cultivation and when greater facilities were provided, the whole amount of stipend would be made out of the income derived from the school farms.

FOOD SITUATION

Giving a survey of the food situation in the Province, Mr. Patil said that the total cultivable area in the Province was 2,80,00,000 acres. Of this, 2,10,00,000 acres were already under cultivation, producing nearly 37,00,000 tons of food crops normally. The Province generally had a deficit of 5 lakh tons per year.

To tackle the food problem, the Government had prepared a number of schemes, the most important of which was the "Grow-More-Food" scheme. These were prepared with a view to making the Province self-sufficient in five years. The Minister called upon the people to realise "the serious food situation" and give all help to Government.

Observing that greater production of food depended mainly on irrigation, the Minister said that today Bombay Province was the most backward in the matter of irrigational facilities. While the proportion of irrigated area in the cultivable area was 100 per cent in Sind, 60 per cent in Punjab, 43 per cent in N.W.F. and 27 per cent in U.P., it was only four per cent in Bombay. Out of the four per cent, two per cent was under well irrigation and the remaining came under the different minor and major irrigational schemes.

IRRIGATION SCHEMES

Government had undertaken a major irrigation scheme, both major and minor. Greater importance was attached to the minor schemes since, they thought that these were likely to be more useful in the near future. Many of the major schemes would not come into full operation before 25 years. The Minor Irrigation Department which came into existence last May had during the period of 10 months investigated about 30 schemes and submitted many of them to Government for approval. Others were on the point of completion. These schemes, when sanctioned and executed, would irrigate nearly 1,00,000 acres within the year.

The Minister stated that nearly 267 engines for lift irrigation were purchased by Government and these were being supplied to private parties at controlled rates.

Mr. Patil disagreed with the view that mechanisation would be successful in this country as in U.S.A. and Russia. Conditions obtaining here were different from those over there. Here the holdings were small and besides there was shortage of oil to run tractors.

Referring to Government's efforts for the reclamation of waste lands, he said that Government proposed to advance eight lakhs of rupees for bringing Khar and other waste lands under the plough. Government had also sanctioned rupees five lakhs to finance the working out of a scheme launched by some non-official enthusiasts in Kolaba District, to increase production of food crops. It was also proposed to appoint non-official Secretaries in the Rural Development Boards to ensure their more efficient working.

Dr. M. D. D. Gilder, Minister for Health and Public Works, opposed the criticism that sufficient provisions were not made for the carrying out of irrigation schemes. He said that number of minor and major irrigation projects were being pushed forward, besides various schemes for improving village water supply. The Bombay Government could not take up the Narbada-Tapti scheme as the rivers flowed through other provinces as well. But he assured that the Central Government would take it up without much delay.

It was easy to speak of collective farming, but difficult to put it into practice, he said.

Amidst laughter he declared that the Finance Minister would tax lipsticks and face powder "which will enable a woman to catch a husband", but would not tax baking powder "which will enable her keep a husband".

Mr. Chotubhai S. Patel urged the Government to explore the minerals and oil resources of the land, especially in view of the threatened cut in India's oil supply.

His Excellency Sir Maharaj Singh inaugurated the prohibition campaign in the city on Thursday. The Governor is seen talking to a labourer who after hearing Sir Maharaj Singh's speech, rushed to the dais and announced that he would never again drink.

Bombay To Be
Made 'Dry'Prohibition Board Decides
To Take Further Steps

BOMBAY, Friday.

It is reliably learnt that the Prohibition Board today decided to take further steps towards making Bombay dry.

It is learnt that it has decided to decrease the imports of foreign liquor by 25 per cent. It has also been decided to reserve 50 per cent of the toddy trees for the production of Vira and Jagary. The Board has approved a proposal for reducing the quantity of stocks that could be held by liquor dealers.

THREE DRY DAYS IN WEEK

Finally, the Board has decided to increase the "dry days" from two to three in a week excluding holidays. These decisions are expected to come in force in the month of April.

"My Place Is
With My People"Czechoslovakia Is Entering
New Phase In History
Says Masaryk

PRAGUE, March 4 (Reuters).—M. Jan Masaryk, non-party Foreign Minister in the predominantly Communist New Czechoslovak Government, declared last night Czechoslovakia had a "bloodless revolution" in the last few days.

M. Masaryk was speaking to officers of the Ministry of National Defence. "We are entering a new phase in our history," M. Masaryk declared.

"My faith and belief was obvious at this dramatic time." As the situation became more clear I did not need to think over where my place was.

"My place is together with the people with the Deputy or Under Secretary I love. When I hear talk of people who have begun resistance, my heart aches."

"Resistance against Hitler—yes, but resistance against our own blood, against our own brothers and against our own Republic—never."

"I am convinced that I shall see no more war in my life. Such is my wish and my prayer."

"You may reckon with me I am one of your," he added.

PRESIDENT BENES
NOT ILL

PRAGUE, March 5 (Reuters).—M. Klement Gottwald, Communist Prime Minister of the new Czechoslovak Government, opened his first Cabinet meeting last night with the declaration: "We sit before clean desks, and we shall not abuse the confidence of the people."

The first decision taken at the meeting, which was expected to last all day, was to raise the bread ration by one kilogram a month, making it now ten kilograms monthly.

President Benes, who has been staying at his country house and taking no part in public affairs since he welcomed the new ministers last week, today denied a report issued by the Czech Ministry of Information yesterday that he was ill.

The President's office said that these reports in foreign newspapers were "not founded on fact."

MORE EXPULSIONS.

Continuing the nationwide purge, the Czechoslovak Social Democratic Party's executive committee last night expelled ten members from the party and cancelled their mandates.

They included M. Václav Mayer, former Minister of Food, M. Frantisek Nedwed, Czech Minister in Canada yesterday, and Dr. Yien Bernard, who has been the party's liaison officer with Socialist parties in the West.

No Publications Banned In Czechoslovakia

PRAGUE, March 4 (UPA).—The Ministry of Information today said that no newspapers or magazines were banned recently in Czechoslovakia and that the previous announcement to the contrary were in error.

The Ministry spokesman expected four Czechoslovak-language publications printed in the United States to have been banned for some time, but he said that many of the 27 others which were suspended "as a temporary measure" were now again available at Government book stores.

The spokesman added that three visas were granted today to foreign correspondents and that clearances were being made in each case on the individual merits.

BOMBAY
MONEYLENDERS ACTNo Intention Of Hitting
Depositors Or Investors

It has been represented to Government that it is not clear whether persons who deposit money, or advance loans to traders are governed by the provisions of the Bombay Moneylenders' Act, 1946, and should, therefore, obtain licences.

Under section 2(9) (g) of the Act, loans to traders are governed by the provisions of sections 23 and 25 of the Act, and not any other section. Accordingly persons advancing loans exclusively to "traders" as specifically defined in section 2(18) of the Act need not obtain a licence but a licence would be necessary in case they advance loans to borrowers other than such traders. "viz.", to non-traders, also and, in respect of such loans, become subject to the provisions of the Act.

DEPOSITS AND INVESTMENTS NOT AFFECTED

The Bombay Moneylenders' Act, 1946, is not intended to hit depositors or investors so long as the relevant transactions are genuine and provable as such and not merely a cloak for what in pith and substance are genuine money lending transactions entered into in the course of a substantially professional money lending business. Appearance and reality must, however, be necessarily distinguishable purely as matters of fact to be determined with reference to all the surrounding circumstances and available evidence or material touching each particular deal or transaction.

A debtor seeks his creditor for a loan while a depositor or investor seeks his trustee or investment for either safety of capital or lower but reasonably safe return, interest or yield. Since the element of lending is absent in the latter class of business, deposits and investments are not affected by the Act.

NO TRADE WAR.

Answering a question the Finance Minister Mr. Ghulam Mohammed said as the economy of India and Pakistan was interwoven, it would be injurious to both to set up trade barriers, and he hoped an amicable settlement would soon be reached. He said: "We do not want to start a trade war between India and Pakistan. We want to live in peace and amity with India."

FRIEND OF PAKISTAN.

He assured the House that he was against sectional divisions and racialism which he said had great disadvantages. "My people are with you for the national good," he said, turning to the Treasury benches.

He asked the House to consider his remarks as those of a friend and in the interests of Pakistan.

WELCOMED

NEW DELHI, MARCH 5 (AP).—A WHITE PAPER GIVING "FACTUAL INFORMATION, BACKED BY THE RELEVANT DOCUMENTS, ON THE JAMMU AND KASHMIR CASE" WAS LAID ON THE TABLE IN THE HOUSE OF THE INDIAN PARLIAMENT TODAY.

The White Paper is divided into four parts with an introduction giving a brief description of the territories involved. The first part deals with events leading to the accession of the Jammu and Kashmir State to India; the second, with the invasion of the State by raiders from Pakistan; the third, with Pakistan's complicity in the invasion and the fourth, with India's objectives.

It was continually being stated by India's opponents and critics on the other side that this was a communal affair and that India was there to support the Hindus or the Sikhs minorities there against the Muslim masses of Kashmir.

"Nothing can be more fantastically untrue. We could not be there for an instant, in spite of our armies, etc., and we would not be there if we were not supported by a very large section of the population, which means the Muslims of Kashmir."

India was charged by people beyond her borders with going to Kashmir to support an autocratic monarch. "The House will remember that one of the conditions that we made at that critical moment when we had to decide whether to send the Indian Army there or not, was that there must be popular Government there, and not as a goal and an ideal, but immediately. It was an immediate thing and it was given effect to immediately in so far as it could be given effect to."

NOT NEWCOMERS

So it was strange that this charge should be brought against us. Looking at this charge from another context, Pandit Nehru said: "These people, men and women of Kashmir, who are with us and who are fighting for their freedom and liberty, are not newcomers in the struggle for freedom. For the greater part of a generation they have fought for the freedom of Kashmir in Kashmir. They have suffered for it and some of us have deemed it a privilege to be associated with them in this fight for the freedom of Kashmir against autocratic rule. These people are with us today. What about their opponents who are against them there in Kashmir or elsewhere? What has been their record in the past ten or twenty years in regard to the freedom of Kashmir? Most of them supported that autocracy. Most of them opposed the freedom movement in Kashmir and now because of entirely different reasons they have become the champions of it. CREED OF THE MAHATMA

Kashmir Films' AHINSA is the first Indian picture to propound a political principle in the garb of entertainment, with any measure of success. Its purely fictitious plot has non-violence as its theme and it points the Gandhian way without being too preachy.

The film abounds in heroics and situations that are frankly melodramatic, but despite these faults it delivers its message competently. Touches of nationalism have, of course, been dragged in by the scruff of the neck, as for instance a large portrait of Dadabhai Naoroji looming on the wall at the back of Professor Vidya Sagar, as he lectures on non-violence to his college class. Himsa and ahimsa are personified by the two main characters, Bhushan and Shekhar, who both begin by being adherents of non-violence. However, the political vortex sweeps them aloft and in rescuing a British soldier from a crazy mob of nationalists who have forgotten their guru's lesson, Bhushan finds himself unjustly imprisoned. Shekhar soon joins him for his anti-British propaganda activities.

The tempo of the film now lives up with Bhushan's release being procured by his profiteering father, while Shekhar's poor mother can do nothing to save her son from rotting in jail. It is here that Shekhar is converted by the fanaticism of a revolutionary, one Sardar, under whose guidance he abjures non-violence and, escaping, becomes a bandit.

There is a tortuous, up-hill path to this picture, the events spiralling up with no downward curve. The first while comrades face each other across an unbridgeable abyss. The terrorist Shekhar, even contemplates Bhushan's murder when the latter

remonstrates with villagers against their accepting the ill-gotten gains of the bandit. Mounting in an ever-increasing crescendo, the climax breaks on the audience when Shekhar's mother intercedes, trying to prevent him from pillooting a golden 'moorti'. Brushing her aside, he causes her death and tracing his steps back to her corpse, is riddled with bullets from the police search party. Thus he who has lived by the sword perishes by it.

The slight romance woven into the story, is unobtrusive. It is well played by two personable youngsters—Dulari and Santosh Kumar. If Navin Yagnik's Shekhar seems over-laden with heroics, it is more the fault of the script than of the actor.

THE SOCIAL AXE

Judging by our pictures, our producers seem very conscious of the evils that infest the social structure of this country. For the sake of the box-office where the man of the masses predominates, his screen counterpart is always shown in flattering colours. Mehboob's ELAN, is no exception to this much-favoured cinematic rule, actually a concession of capitalist producers to the common man whose century the present is supposed to be—a sort of sop to Cerberus.

Whatever the reason, it is good to see feudalism and capitalism being given the rod, while humble labour is assigned the role of the meek who, in the bible, inherit the earth. The central characters in the present photoplay are drawn larger than life to accentuate the differences between the classes they personify. Capitalism is embodied in the greedy money-lender to whose chariot wheels is

bound a decadent relic of feudalism. Against these powers of evil, stands the educated but poverty-stricken youth deprived of his deserts in a world where not ability but pulling all wires gets one anywhere. The usual romantic note of the rich girl loving the poor man, has, of course, been injected into the story. Complications, necessary ingredients of every Indian film, are easily introduced by making the heroine the play-thing of the reprobate whose destiny rests in the palm of the money-lender's greasy hand. A courtroom scene as the scene of the climax, murder having taken its toll, along the way.

Characterisation in this film's strong point. As the grasping usurer, Shah Nawaz is in his element, while from Himalayawala comes a rich etching of the plutocrat going to seed. Surendra is a splendid example of miscegenation in the part of the poor and "youthful" hero. Munawar Sultan plays the heroine torn between opposing loyalties.

The Mehboob touch is noticeable while the strains are clearly Nautch-like.

THE BLIND SAINT

The Gujarati photoplay BHAKTA SURDAS, from the Prakash studios, presents a lofty tale.

Blivamangal is a man in love with life; but for him life stands for the gratification of every lustful desire. No excuse is too low if he can get near to Chitamani, a singer who first opens his eyes to the evil of his carnal ways. He decides to turn over a new leaf and along with Chitamani becomes a wandering devotee. When, however, he one day sees a beautiful woman, the flesh calls once again.

It is from this character that the name Surdas, as applied to the blind, originates, for when the mendicant realises that his eyes are the windows

Bombay Municipal Elections A SURVEY OF THE RESULTS

BY S. H. SETH

Saturday—February 21st—sprang many surprises for, on that day, the entire composition of our Municipal Corporation changed beyond recognition.

Since 1939, the Congress Party had been in real control of our civic affairs and the political observers as well as men-in-the-street had expected that under the system of adult franchise and joint electorates in Free India, Congress would be returned to power with a much more impressive majority.

The election results, of course, brought the Congress party out as a single largest party in the Corporation, but with a much reduced strength and with an overall majority lost.

The Congress put up 94 candidates, leaving twelve seats uncontested out of the total of 106 such seats. It captured 47, gaining 50 per cent. success. Adding a candidate elected from the Indian Merchants' Chamber, the total strength of the Congress Party comes to 48 in the House of 117.

Among the 94 Congress candidates, 75 were Hindus (including members of the scheduled castes) 8 were Muslims, 8 were Parsis, one Sikh and one Indian Christian. Out of them, 39 Hindus, 2 Muslims, 4 Parsis, 1 Indian Christian and 1 Sikh were successful.

The Socialists Party put up 48 candidates, out of whom 26 were successful i. e. 54 per cent. These 48 candidates consisted of 41 Hindus, 4 Muslims and 3 Indian Christians. Out of these, 22 Hindus, 1 Muslim and 3 Indian Christians won the election battle.

The Muslim League Party put up 12 candidates in some select wards, predominantly inhabited by Muslims out of whom 10 were successful i. e. 83 per cent.

The Scheduled Castes Federation nominated only 9 candidates, out of whom 7 were returned, i. e. 78 per cent. The Communist Party put up only 8 candidates in some select constituencies, largely inhabited by textile labour population, out of whom 5 succeeded i. e. 62.5 per cent. Eight Communist candidates consisted of seven Hindus and one Muslim. Out of them, 4 Hindus and one Muslim won the election.

Mr. Jamnadas Mehta's Citizens Election Board put up as many as 16 candidates, out of whom only one was successful, i. e. 6.25 per cent. Out of these sixteen candidates, 14 were Hindus and 2 were Parsis. All the 14 Hindus were defeated, while

1 Parsi gentleman out of the 2 was successful.

Among the other organised and unorganised parties which entered the election field were the Radical Democratic Party which put up a couple of candidates, the Trotsky group which nominated only one and the Bolshevik-Leninist group which too, nominated only one. None of them was successful.

As many as 53 Independents were contesting, out of whom only 10 succeeded. These 53 candidates consisted of 27 Hindus, 19 Muslims, 5 Parsis, 2 Indian Christians, out of whom, only 4 Hindus, 4 Muslims and 2 Parsis were successful.

FINAL POSITION OF PARTIES
Thus, the final Party-wise strength in the new Municipal Corporation to be constituted in April, 1948, would be as follows:—Congress: 47; Socialists: 26; Muslim League: 10; Scheduled Castes Federation: 7; Communists: 5 and Independents: 11; (including one belonging to the Citizens Municipal Election Board).

This distribution of seats accounts for 106 seats out of the total of 117—the remaining 11 being allotted as under:—1—10 Indian Merchants' Chamber 1—to Bombay Chamber of Commerce 1—to Bombay Mill-Owners Association. 1—to University of Bombay and 4—to Trade Unions and 3—nominated among them being the Commissioner of Police, the Municipal Commissioner and the Chairman, Bombay Port Trust.

Indian Merchants' Chamber has returned a Congress nominee, while the other three single-member constituencies may return Congress supporters. Trade Unions constituency may return one Congress nominee or supporter. Thus the Congress Party may have a total strength of 52 members. Assuming that the three ex-officio members will vote for the Congress, the Congress may count upon the total strength of 55 in the House of 117. Even then, it shall not have the overall majority in the House.

Mr. Jamnadas Mehta, a sitting member of the Corporation, formed a new group (called the Citizens' Municipal Election Board) in association with such others as Mr. M. N. Talpade, Mr. R. K. Tattis, Mr. R. A. Gole, Mr. Naushir Bharucha and Mr. L. G. Thakre to remove the fascist menace that the Congress Party was. None of them could win the elections, excepting the solitary Mr. Naushir Bharucha. Mr. Thakre even forfeited his deposit.

Mr. A. P. Sabavala, the present Mayor of Bombay, Dr. Sorab Mehta

—son of Sir Pherozshah Mehta—Mr. Motichand Kapadia, who would have become the Mayor in case of his election, Mr. B. N. Maheswari—deputy leader of the Municipal Congress Party—Mr. Ishwardhar S. Patel, Prinsipal, M. V. Dande and Dr. G. R. A. Shaikh are outstanding among those who have been defeated in these elections.

Some of those who made their mark in the outgoing Municipal Corporation like Prof. S. R. Davar, Mr. Jamnadas Dwarakadas and Mr. Nagindas Masani, a former Mayor, did not contest the elections at all.

In all, 12 women contested the elections, out of whom 7 were successful, i. e. 58.33 per cent. From among these, five women candidates, 3 contested on Congress ticket and 2 of them were successful 3 contested on Socialist Party ticket and all of them were successful, 1 was a Muslim League nominee and 2 were Independents, all of whom lost. Community-wise, 7 were Hindus, 2 were Parsis, 1 was Muslim and 2 were Christians. Out of them, 4 Hindus, 1 Parsi, 1 Muslim and 1 Christian were successful.

To some extent, the party position in the new Corporation would be identical with relations with Britain, because of "provocation" at Belize, capital of British Honduras, where British troops have been landed in face of threats of a Guatemala invasion.

PROBLEMS BEFORE CONGRESS PARTY

The Congress, being the single largest party, must be one party to such an amalgamation or co-operation. Among the others, Muslim League and Socialist Party have already offered co-operation to the Congress Party. Acceptance of the offer of co-operation from the League by the Congress would mean letting communalism thrive in her own lap. If this happens, it would belie the Gandhian ideology by which it stands. The Socialist Party is an off-shoot of the Congress and its independent existence is only a few months old. There is no material divergence between its ideology and that of the Congress. Besides, it is a communal progressive party. Therefore, the co-ordination between the Congress Party and the Socialist Party would be a most desirable and natural thing to achieve. In reality, there should not be any difference between the whole that is the Congress and the part (now separated) that is the Socialist Party.

Viewing the Congress "wins" and the Socialist "wins" separately, we find growing support for the latter. This all the more, emphasises the need for stating and defining the Congress matters in unequivocal and categorical terms. Any confusion regarding the policy it proposes to pursue in future—when its main objective of achieving freedom for this country is now been fulfilled—will seriously prejudice its position among the masses. The Municipal Elections in this city are an indicator of the

200 Per Cent Tax On British Imports

Guatemala Congress Resolution

SAN SALVADOR, March 5. (Reuter): Rumours and strict censorship have combined to blanket reliable news of events in Guatemala, but all indications have been that the crisis with Britain was being pressed strongly, radioes William Hardcastle, Reuter's Correspondent.

The expected formal diplomatic break apparently had not last night arrived. However call from this neighbouring republic to the British Legation in Guatemala, proved impossible, at least for the time being.

All that was known was that deputies in the Guatemala Congress have submitted a resolution calling for breaking off relations with Britain, because of "provocation" at Belize, capital of British Honduras, where British troops have been landed in face of threats of a Guatemala invasion.

A similar resolution, which would impose a 200 per centum tax on all British imports, was also submitted.

Indications were that every attempt would be made to "keep the crisis boiling" until the end of this month at least, when the Pan American conference is being held at Bogota, Colombia.

It can be expected that the Guatemalan resolution calling for abandonment of all colonial territories in the Americas will be passed at Bogota in some form.

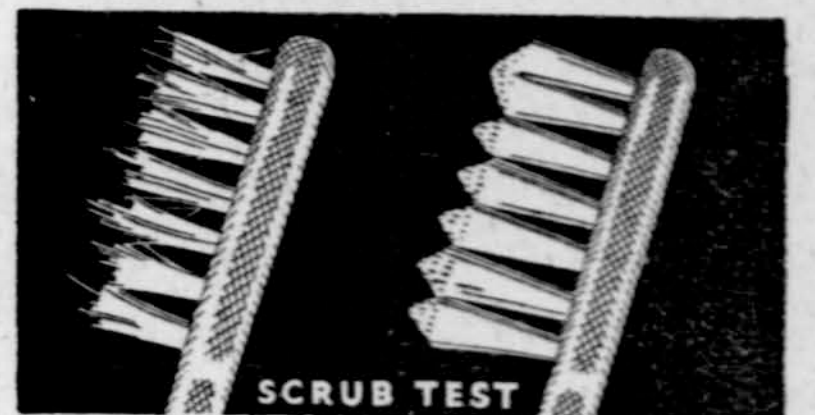

HOPE FOR SOLUTION
Venezuela, which shares a border with British Guiana today officially expressed the hope that a solution might be found, acceptable to both parties, in the present difficulties between Britain and Guatemala over British Honduras.

Indications that she might support a general move to define "colonial rights" at the Bogota inter-American conference, starting on March 30, a Venezuelan foreign ministry statement said western hemisphere countries are bound by ties of solidarity and close co-operation to look at each other's problems with keen interest.

The statement hinted that Venezuela would condemn intimidation as an instrument of foreign policy.

trend of events in the country and unless the Congress is converted into a "Social Service Corporation" in the most real sense of the term, its future is cast with doubt.

Wisdom tufts stay springy 3 times as long as bristles

Best bristle brush was scrubbed after 20,000 strokes. Wisdom toothbrush was like new after same test.

THANKS to the amazing resilience of Wisdom's nylon tufts, one Wisdom toothbrush outlasts three best brushes made from animal bristles! The tufts never go limp and soggy, and they are anchored in the head so that they won't come out.

CORRECT SHAPE GLEANS BETTER! The Wisdom short head fits the inner curve of the teeth and cleans the back of every tooth as thoroughly as the front. Widely-spaced tapered tufts penetrate between the teeth and "comb out" food-particles which cause decay. Correct balance ensures comfortable grip and easy brush-control at all angles.

COMMUNISTS LOOT GRANARY OF HYDERABAD CONGRESSMAN

Arrests Follow Searches In Kistna District

BEZWADA, March 5. (A.P.I.): Bez-wada police early this morning raided the offices of the "Prakasathi", a Communist, Telegu daily and "Prakasathi Nagar" in Moghulrajapuram, a suburb of Bezwada. The police seized some papers and arrested Mr. Gopalakrishna, Publicity Officer, Hyderabad State Andhra Mahasabha, who was extorted from the Hyderabad State some time ago for his alleged Communist activities.

The arrest and searches were made under the Madras Criminal Law Amendment Act.

According to a message received by the District Superintendent of Police, Krishna, from the Inspector of Police, Nandigama, and sub-inspector of police, Munugala, eleven Communists were arrested last evening for alleged attempts to loot the paddy granary of a State Congressman in Nela-mari village in Munugala enclave of Hyderabad territory. The message further says that three unlicensed loaded guns were found with the above arrested persons.

NO MERGER OF BIG STATES BY FORCE
Reported Assurance To Rulers
NEW DELHI, March 5. (UPI): The issue of merger or non-merger of the States was clinched yesterday, when the Conference of representatives of the Major States, convened by the Bikaner Maharaja, concluded its deliberations.

It is reliably learnt, this Conference, apart from discussing the problem of "mediatization", apprised the States Ministry of the Government of India of the misapprehensions created in the minds of the Prince of the major States as a result of many reports that bigger States also are expected to come into the merger scheme, and sought an assurance and clarification on these points from the States Ministry.

The United Press of India special representative further understood that the Bikaner Maharaja has received an assurance from the spokesman of the States Ministry that the States which are "viable units" will not be brought in the orbit of the merger scheme unless they themselves express their desire to amalgamate with the adjoining area or provinces.

In the course of a series of conferences of the ministers of the major States under the chairmanship of the Maharaja of Bikaner, views of these official representatives of the Princes concerned were ascertained with regard to the clauses bearing on the States embodied in the new draft constitution of India.

The Conference, it is authoritatively learnt, has prepared a list of amendments, which will be moved in the Dominion Parliament at the time of discussion of the new constitution. The list of amendments, it is

understood, will be put in the final form after the Rulers of the States concerned have expressed their views on them.

PRINCIPLE BEHIND MERGER
Interviewed by the United Press of India on the reported merger of the major States with the adjoining areas, Mr. V. T. Krishnamachari, Prime Minister of Jaipur, said: "It is high time these lies, that the States Ministry had asked for integration of the major States into compact political units were nailed to the counter. On the contrary, the States Ministry has recognised the principle that only smaller units, namely, those States which have got a population of less than a million and an annual income of less than Rs. one crore, should be amalgamated. There is, therefore, not an iota of truth in the reports that Jaipur will merge with the Matsya Union, or that Jodhpur, Bikaner and Jaipur will amalgamate to form one administrative unit."

Mr. S. A. Sudhakar, Prime Minister of Baroda, also confirmed the same viewpoint and reiterated that it had been decided once for all, as a result of these parleys, that "viable units" would not be merged and Baroda and nearly a dozen other States would have a separate existence, enjoying full autonomy, which, in course of time, may come to the level of provinces so as to form the United States of India.

MERE EXPANSION OF JAIPUR CABINET?

Praja Mandal To Seek Clarification

(From Our Correspondent)
JAIPUR, March 5. (UPI): In connection with the Jaipur Government's announcement of Constitutional Reforms, Shri Tikaram Palwal, President of the Jaipur Rajya Praja Mandal, said today the long expected announcement regarding the formation of a new Government in Jaipur as an interim measure pending the establishment of full responsible Government has been made. I must, however, say that the Maharaja's decision to transfer power to the people's representatives as a result of long parleys between the Praja Mandal and the Jaipur Government could have been expressed in a better and more appropriate language. By referring to the formation of the interim Government, on the basis of which the talks have all along proceeded, as an expansion of the Cabinet, the announcement has been robbed of its spirit and grace.

He added: "I am calling a meeting of the Working Committee of the Praja Mandal to consider the announcement. It is necessary to have some further talks with the authorities to clarify certain points. I have nothing more to say on the subject at present."

WESTERN UNION TREATY TALKS

Anglo-French Draft Placed Before Five-Power Conference

BRUSSELS, March 5. (Reuters): The Anglo-French draft of the proposed Western Union treaty will be placed before the Five Power conference of Britain, France, Belgium, Holland and Luxembourg here today.

Mr. Gladwyn Jebb, Assistant Secretary of State at the British Foreign Office, was expected to arrive by air from England to take part in today's session due to open at the Belgian Foreign Office.

The treaty proposals presented by the Benelux (Belgium-Holland-Luxembourg) delegates yesterday were understood to resemble the Anglo-French draft so closely that it was forecast the talks would end next Tuesday and

the treaty would be concluded within a fortnight.

The military aspect of the Union it was learnt, will be discussed when Field Marshal Lord Montgomery, British Chief of the Imperial General Staff, tours Belgian military establishments at the end of this month.

Usually well-informed circles here said the treaty could be signed before the conference of the sixteen Marshall Plan countries meets in Paris on March 15.

If Mr. Georges Bigault, French Foreign Minister, was not able to leave Paris before the sixteen nation conference, it was thought that he and Mr. Ernest Bevin, British Foreign Secretary, would come to Brussels on March 17.

LONDON STOCK EXCHANGE

British Funds Firm

LONDON, March 5. (Reuters): Shares were freely offered in the Stock Exchange today when it became known that mining trade unions were calling for discussions on the question of wages and hours. A sharp marking down of prices occurred with losses of two and six pence registered. Slight recovery took place when the market realised that this message did not constitute a fresh threat of labour troubles.

Elsewhere, there was scarcely a ripple of interest in any section which generally were steady. Some small routine orders brought about a firmer tendency among British Funds with gains of one-eighth. The exception, however, was transport three-percents which lost one-eighth to 7-15/16.

Slightly lower levels prevailed for oils as a result of small offerings. But these were well absorbed and the undertone of the market remained very steady.

The Foreign Bond section experienced a drop of business as a result of decline in prices for European issues on Wall Street.

Reactionary Improvement On Stock Exchange On Short Covering

COTTON PRICES RISE ON MODERATE BUYING

Bullion Market Firm Under Steady Offtake

BOMBAY, March 5. The Bombay Stock Exchange was fairly steady today under scattered covering influenced by technical considerations. The market seems to have lost confidence and the present improvement is mainly due to short covering as actual buying urge is absent. The recent sharp decline dried up offerings but in case if prices improve further, bears who have covered a portion of their short sales, may come in with selling orders. Thus the market outlook remains discouraging in the absence of any constructive development.

Tata Steel Dids. Shares opened at Rs. 1702 and after declining at Rs. 1680 improved at Rs. 1707. Ordinary Shares opened at Rs. 352 and after declining at Rs. 348, steadied at Rs. 351. Simplex Shares opened at Rs. 224 and improved at Rs. 226. Swadeshi Shares opened at Rs. 643 and after touching Rs. 640 rallied at the opening level.

Thereafter there was further moderate improvement but towards the close scattered selling appeared. Tata Steel Dids. after advancing at Rs. 1722½ quietened at Rs. 1715. Ordinary shares were quoted at Rs. 352. Dyeings were done at Rs. 1052½ and Koinoor was quoted at Rs. 582. Simplex Shares were quoted at Rs. 228½ and Swadeshi Shares stood at Rs. 643.
